

[TAROT TOPICS: TAROT FOR YOUR CAREER]

FIND YOUR DREAM JOB WORKSHEET

1. Get Clear About Your Dream Job

Start with your Career Vision - what you do want to create in your work and career?

Then, use the Tarot cards & your intuition to answer the following questions:

What is the core reason for me wanting to leave my current job?

What do I dislike about my current job?

What do I most desire in my next job?

How can I best use my strengths and talents in my next job?

How will I know when I have found the right job?

2. Create Your Dream Job Search Plan

Ask your Higher Self – and then your Tarot cards:

What steps can I take to find my dream job?

3. Consciously Choose the Job That's Right for You

What might I experience if I accept this opportunity?

What else do I need to know about this opportunity?

What are my next steps?
